Delock USB 5 Gbps 4 Port USB Type-C™ Hub with USB Type-C™ connector

Description

This solid USB hub by Delock with metal housing can be connected to a computer, laptop or mobile device via the **USB Type-C™** interface. It expands the computer by 4 USB-C™ ports. Different USB devices such as USB flash memory, card reader, external enclosure etc. can be connected.

Small sturdy helper

Due to its **small dimensions and its sturdy housing**, this Delock Hub is particularly suitable for travelling. It can simply be packed into the bag together with the laptop or tablet and used as needed.

Additional USB Type-C™ connector for power supply

The additional USB-C™ socket can **supply power to devices** connected to the USB female ports of the hub if the power supply of the host device is insufficient. Power supply via a separate power supply is possible **up to 5 V and 3 A**.

Note

A power supply to the host device (e. g. laptop / tablet) is not possible.
